

5th Annual MBCV Southbank Display

3rd December 2017

With the Melbourne City Council poised to confirm our 2017 permit (in place when this goes to print), the 5th annual Southbank display is on its way!

The event has become extremely popular as a fun day presenting the club and our cars on the leafy Southbank promenade. Restaurants, shops and good company all contribute to a wonderful day.

A broad cross section of models including feature and special interest vehicles will be invited to present to the public, so if you are interested, please register now.

As places are very limited, registration unfortunately cannot guarantee a place and all of those successful will be notified by email by the 3rd November. Full instructions re assembly point,

timing, order of entry, council regulations etc will be provided to each entrant at that time also.

Please contact me by email no later than the 20th October.

If your car is not known to me, please ensure that a photograph is attached. Looking forward to hearing from you soon!

Graeme Inness gg.inness@bigpond.com

Even if you do not show your car, please come along and enjoy the day. Plenty of parking available for those not displaying their cars, off site nearby.

Models particularly sought are: R107, R121 (190SL), W108, W116, W123, C126 coupé, W111 (Finny sedans). Interesting cars, vintage and classic.

Regrettably, a strict maximum of 36 cars is provided for under the M.C.C. Event permit and covered by our insurance policy to that limitation. Cars parked on the display site that are not registered/authorised for the event will place the Club in contravention of the Permit, accordingly potentially

nullifying our public liability insurance. In order not to place the Club at risk in this regard, any member whose car is parked but not confirmed as accepted for this event will have to remove it immediately.
