COVIDSafe Plan

For when 80% of Victorians are fully vaccinated on or about 5 November 2021

The following COVIDSafe Plan is designed to comply with the National Plan Phase C when 80 percent of the eligible (16+) population of Victoria is double vaccinated.

Vaccination Policy

The MBCV has a duty of care to both protect the health and safety of all attending our events and functions as well as a legal obligation to comply with the regulations issued by the Chief Health Officer. Therefore, as a clear policy statement, once the 80 per cent threshold has been reached and all eligible Victorians have had an opportunity to be vaccinated, we require all members attending Club events, functions and activities to be either fully vaccinated or willing to provide a recent (2 days or less) negative COVID test result. The only exception to this requirement will be attendees less than 16 years of age. The following COVIDSafe Plan is dependent on this policy.

General Health and Hygiene

When involved with the Club, members and guests are required to maintain the following COVID hygiene practices:

- Wear a face mask when inside a public space
- Maintain physical distancing (1.5 metres)
- Maintain good hand hygiene
- Don't attend activities if unwell
- Cough and sneeze into tissue or elbow

The Club expects all members and guests who are feeling unwell or have a cold, scratchy throat, or temperature to not attend events. In addition, vulnerable people with a medical condition are encouraged to consider whether they should attend.

General Club Meetings and Other Inside Functions

When we are permitted to hold our monthly Club meetings at the Mulgrave Country Club or hold other functions such as the Presidents Dinner or Concours Cocktails, all members and guests will be expected to comply fully with the COVIDSafe Plan of the venue. This includes check-in, hygiene and any other requirements that may apply.

Where an attendance limit applies due to the density quotient of the venue pre-booking through the TryBooking service will be required to ensure the attendance limit is not exceeded.

Clubhouse Functions and Activities

When attending functions or undertaking activities at the clubhouse in Ferntree Gully, all members and guests will be required to comply with our vaccination policy, check-in using our QR Code and observe our general health and general health and hygiene requirements.

The number of people attending a function or activity at the clubhouse will be limited to the density quotient of 1 person per 4 m². That is, 20 people upstairs and 40 people downstairs.

For each function or activity, the Club will appoint a COVID Marshal to monitor and ensure these requirements are observed. The COVID Marshal shall also ensure that all surfaces and equipment used during the activity is thoroughly cleaned using disinfectant wipes.

In addition, the Club will provide hand sanitiser at the entry door and disinfectant wipes for the cleaning of all surfaces and equipment used during the activity.

Concours and Other Outside Car Show Events

For MBCV organised outside events, such as the Concours d'Elegance, it is expected that the display will be held in a community space with both members and the public attending.

In addition to complying with the COVIDSafe Plan of the venue owners or operators the Club will ensure the following is observed:

- All members and guests will be required to observe the Club's vaccination policy and general health and hygiene requirements.
- The maximum number of people permitted on the site at any one time will be limited to a density quotient of 1 person per 2 m² or 500 people, whichever is the lesser.
- A site specific QR Code shall be displayed at all entry points to the site and all attendees, both members and guests are required to check-in using the code.
- Adequate supplies of hand sanitiser shall be made available at all entry points.
- The Club will appoint a COVID Marshall who will be responsible to ensure the COVIDSafe Plan is complied with.
- All vehicles on display are to be parked at least 1.5 metres apart.
- Vehicles will display appropriate signage regarding social distancing, and discouraging the touching of vehicles.
- Members of the public will not be permitted to enter or sit in vehicles.
- Club members will be advised to clean their vehicles before and after each display, and wipe down frequently touched surfaces.
- Members with vehicles on display will be required to carry adequate antiseptic wipes to clean down the interior of their vehicle at the conclusion of the show.

Register Runs

Both intrastate and limited interstate travel is permitted with the number of people allowed on the run capped at 150. Depending on the circumstances the number may be limited by venues used as part of the run.

Where possible, when participating in organised Club runs, members and guests will be encouraged to limit the occupants in a vehicle to immediate family members only.

To ensure our contact tracing obligations can be met it is required that all participants are booked in using the TryBooking service. Late entrants will not be permitted.

The Club will appoint a COVID Marshall for the run who will be responsible to ensure compliance with these requirements.

All participants must comply with the vaccination policy and general hygiene requirements when out of their vehicle. When at a venue for refreshments, a meal or overnight stay, all participants will be expected to fully comply with the COVIDSafe Plan of the venue.

Communication

The MBCV COVIDSafe Plan and any revisions or new editions will be included on the MBCV website and all members will be sent a copy by email.

Where feasible, the Club will arrange a display of standard COVID posters at outside events and at the clubhouse.

Signed

Chris Fraser
Secretary
Mercedes-Benz Club (Vic.)
