

Speedometer Watch Information

Delivery: Watches must be pre-ordered and are shipped to Australia in batches. Contact the Merchandise Officer for approximate delivery times

Email: merchandise@mbcv.org.au

- Type:** Select from a range of speedometer faces from Mercedes-Benz Models R107/C107, W108/109, W111 Cabrio/Coupe, W111 Sedan, W113, W114, W124 and W126. The type number is shown on the trip meter of your watch.
- Model:** Most watches have the engine size shown on the odometer, so select the Model appropriate to your car. The exceptions are W114 where you can select your year of manufacture and W124 & W126 which show the type No. on both odometer and trip meter.
- Movement:** Automatic watches have mechanical self winding movements with a second hand and a glass back (to view the Japanese made Miyota 821A, 21 jewels movement). Quartz watches are battery powered with movements made by Citizen, have a stainless steel back plate and don't have a second hand.

Automatic W111 Cabrio or Coupe
250SE in km/h

Back of automatic watch:

Quartz W111 Cabrio or Coupe 250SE in MPH

All watches are made in Germany using imported movements and are waterproof to 5 atm (10 atm for quartz). Wrist bands are genuine leather and the 41 mm wide cases are stainless steel. Watches come in a presentation box.
